 Flowmore Ltd | 28 years veteran  
 in Marketing, Business  
 Development & procurement

**Gautam Mondal (Late)**  
 Mechanical Engineer | 35  
 years experience in India  
 and abroad in Oil & Gas  
 Sector

LIVE 4 HELP FOUNDATION was founded in 2020, by a professional team with diversified backgrounds, who were passionate, committed to make a difference for worthy causes. Team was spread across the globe and had a desired to improve the lives of others by providing them with access to quality education and healthcare, which are essential for human development and well-being. Team was also keen to take on green initiatives by taking care of mother earth.

Like many others, some of us were engaged occasionally, at individual capacity, in social services by sponsoring financial aids for deserving students, distributing rations to few needy people during Covid-19, providing gifts to small group of underprivileged people during festival time. We also arranged plantation and cleanliness drive in nearby localities. Sometimes donated money to needy on request through friend circle and social media.

During such participation, we realized that there is lot to be done to help needy people and it is not possible to do more only with individual contributions and unstructured initiatives. So, thought came to our mind, why not we form a charitable/non-profit organization so that we can do much more in an organized manner, get larger fund and engage with other NGOs to make bigger impact. We took the challenge and a journey started under "Live 4 Help Foundation". The name of organization itself reflects our passion and objectives.

## Education

“Learning gives creativity, creativity leads to thinking, thinking provides knowledge, and knowledge makes you great.” - Dr. A.P.J. Abdul Kalam

Education is the fundamental right of every citizen and one of the most powerful things in life. Education allows us to find the meaning behind everything and helps improve our lives significantly. Unfortunately, most of the kids in poor family discontinue their education due to lack of money, family support and motivation from their parents. The parents being illiterate force their children to help in their earning and livelihood. Despite numerous organizations working towards education of underprivileged students, there is still huge gap in supporting their education.

Live 4 Help Foundation will identify deserving students and their academic needs such as annual school fees, books, stationary, electronic gadget and coaching. Live 4 Help Foundation through social platforms will appeal to donors to help these needy students with stipends / scholarships to meet their basic needs and continuity of education.

## Team - Education
